| <b>Product name</b>  | MaxxPower 375 nm                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| <b>Reference</b>     | LBX-375                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| <b>Description</b>   | <p>The MaxxPower LBX-375 is a compact 375 nm laser source that exhibits the highest optical power over an industry-standard 100×40 mm footprint. Its robust design, complete with readily available safety features makes it well-suited for both laboratory and industrial use.</p> <p>This model is a trusted solution for polymer-curing, lithography or wide-field microscopy. Key features</p> <ul style="list-style-type: none"> <li>• <math>\pm 1.0\%</math> long-term power stability; low optical noise</li> <li>• Modulation up to 1 MHz</li> <li>• Integrated control electronics Fully compatible with Oxxius MixxWave combiners for multi-mode fiber delivery in conjunction with other laser lines.</li> </ul> |

## Product Variations

| Part Number         | Power |
|---------------------|-------|
| LBX-375-200-HPE-PPA | 200mW |
| LBX-375-400-HPE-PPA | 400mW |

## Optical Characteristics

|                                                                          |                                  |
|--------------------------------------------------------------------------|----------------------------------|
| <b>Emission wavelength</b>                                               | 375 nm                           |
| <b>Tolerance</b>                                                         | (±5nm tolerance)                 |
| <b>Control modes</b>                                                     | Automated power control (APC)    |
| <b>Optical noise</b>                                                     | ≤ 0.2% rms, 10Hz-20MHz bandwidth |
| <b>Spectral linewidth</b>                                                | ≤ 2nm                            |
| <b>Analog modulation function - Rise / fall time</b>                     | ≤ 300ns                          |
| <b>Analog modulation function - Bandwidth</b>                            | ≥ 1MHz                           |
| <b>Beam diameter, 1/e<sup>2</sup> level, 50mm from the beam aperture</b> | 3.0 x 1.4mm                      |
| <b>Beam divergence, 1/e<sup>2</sup> level full beam, far field</b>       | 1.4 x 2.2mrad                    |

## General Specifications

|                                         |                                                         |
|-----------------------------------------|---------------------------------------------------------|
| <b>Supply voltage</b>                   | 5V to 12V                                               |
| <b>Operating temperature</b>            | 10°C to 50°C                                            |
| <b>Storage temperature and humidity</b> | 0°C to 60°C                                             |
| <b>Warm up time</b>                     | ≤2 minutes                                              |
| <b>Interfaces</b>                       | USB, RS-232, direct modulation inputs                   |
| <b>Dimensions (laser head)</b>          | 100x40x40 mm                                            |
| <b>Weight (laser head)</b>              | ≤330 g                                                  |
| <b>Controler dimensions</b>             | 106x126x56 mm                                           |
| <b>Compliance</b>                       | CE (incl. IEC 60825-1) and FDA 21 CFR 1040.10 / 1040.11 |
| <b>Laser class</b>                      | 3B                                                      |
| <b>Warranty</b>                         | 24 months or 5000 hours, whichever occurs first         |

## Options

|                          |
|--------------------------|
| Multimode fiber coupling |
| Heat management          |
| Band-pass filter         |
| OEM version              |
