

## DATASHEET

# LBX-375-HPE Laser Diode

### **Optical characteristics \***

| Emission wavelength                            | 375 nm (± 5 nm)               |                  |
|--|-------------------------------|------------------|
| Linewidth                                      | ≤ 5 nm; 2 nm<br>typical       |                  |
| Output power                                   | Free space                    | Fiber coupled    |
|  | 200 mW<br>400 mW              | 160 mW<br>320 mW |
| Control mode(s)                                | Automatic Power Control (APC) |                  |
| Power stability<br>over 8 hours and within ±3k | ± 1%                          |                  |

#### - Transverse multimode free-space beam

Beam dimensions (typ) at 1/e2, at laser aperture

3.0 X 1.4 mm

Beam divergence at 1/e2, full angle, in far field

1.4 X 2.2 mrad

#### - Modulation functions

#### **Analog Modulation**

0-5V input voltage DC-1 MHz Bandwidth 3dB cut-off frequency, APC mode Rise/fall time, 10%-90% ≤ 300 ns

Fiber coupling option

|  | <b>MM Fiber</b><br>(50 µm, 0.22 NA) |
|--|-------------------------------------|
| Coupling Efficiency                            | ≥ 80%                               |
| Available optical connector                    | AR-coated SMA FC-APC                |
| Power stability<br>over 8 hours and within ±3k | ±2%                                 |
| Fiber length                                   | 2.0 m                               |

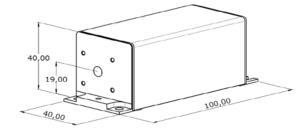

Warranty : 12 months from shipment date \*specification at nominal power

Oxxius operates a continuous improvement programme which can result in specifications being modified without notice.

## System specifications

#### Plug and Play version provided with :

ControlBoxx

#### Other options

- Heatsink. Including Power Supply
- L6Cc-HPE wavelength combiner compatibility
- Electro-mechanical shutter
- External modulator
- Specific beam shaping

## General specifications

|                       | Plug and Play version                            | OEM version                  |
|-----------------------|--|------------------------------|
| Compliance            | CE<br>FDA 21 CFR 1040.10/1040.1                  | FDA 21 CFR 1040.10 / 1040.11 |
| Operating temperature | 10 - 38°C ambiant air with<br>optional heat sink | 10 - 50°C baseplate          |
| Power consumption     | ≤ 25 W   | ≤ 10 W                       |
| Storage temperature   | 0 to 60°C  |                              |
| Supply voltage        | 100 to 240 VAC<br>external power supply          | 5 to 12 VDC                  |
| Warm-up time          | ≤ 2 minutes                                      |                              |
| Interfaces            | USB, RS-232, dedicated electronic interface      |                              |
